# Modelling North American

Unsurpassed variety and choices for the railroad modeller – from mountains...

# Modelling North American

A long freight train composed of numerous white boxcars is crossing a bridge over a river. The scene is captured during sunset or sunrise, with a warm, golden light illuminating the sky and the train. The train is moving from left to right, and the bridge's structure is visible beneath the cars. The background shows a hazy landscape with some distant structures.

... to the plains...

# Modelling North American

A tropical beach scene at sunset. In the foreground, a large palm tree is silhouetted against the bright orange and yellow sky. The sun is low on the horizon, reflecting a shimmering path of light across the ocean's surface. Waves are gently breaking onto a sandy beach. In the background, more palm trees and a distant shoreline are visible under the twilight sky.

... to the silvery seas ...
